TO COLLECTORS.

I am perfectly willing to have my numismatic tastes judged by this small collection of Coins and Medals, formed by me during the last ten years, but I am unwilling to have my friends imagine that my efforts as a collector will now cease, and that hereafter I shall value coins merely for the profit they may bring. Quite the contrary; je recule pour mieux pouvoir sauter: in fact, a small beginning is already made, but in what specialties is a matter of interest to myself alone for the present.

The most cursory perusal of the catalague will show the intelligent and appreciative collector that if I have failed to fill up all the projected series, I have at least been remarkably successful in gathering desirable and valuable numismatic specimens, that very little dross has accumulated in my cabinet, and that few collections so small present a more compact array of rare, beautiful, and interesting coins.

For this reason I feel not the slightest apprehension of the results of this sale, which is absolute, and without any reserve whatsoever.

Very respectfully,

ED. FROSSARD.

GOLD COINS.

This part of my cabinet is intended to illustrate, as far as very limited means would allow, the gold coinages of ANCIENT GREECE and ROME, of ENGLAND, the Continental nations of EUROPE, REFORMATION COINS, early issues of the NATIONAL MINT, the CALIFORNIA and MORMON coinages, etc. How much, or rather how little I have achieved is left to the appreciation of collectors, but it is pleasant to know that others have of late years turned their attention to this, the most noble domain of numismatics, and that the day is not distant, when collections of gold coins exclusively will be formed here, as well as in England, France and Germany. Among the coins herewith offered will be found a number extremely rare and beautiful, heretofore highly valued by collectors; none, I think, are unworthy to figure in any cabinet.

PLATINUM COINAGE OF RUSSIA.

The specific gravity of platinum is greater than that of any other metal or known substance, being 20, or 1.40 greater than that of gold. The authenticity of this livre as a Colonial coin having been doubted here, collectors are referred to Mr. Hoffmann's work, "Monnaies Françaises," where the identical coin is described among the Colonial series. Recent researches in Paris have led to the discovery of documents which prove that this coin owes its origin to Law, Scotch financier and founder of the French Indies (Mississippi) Company. The State mints not being able to supply the demands of the Company for small silver, Law was authorized to have livres of 20 sols struck in private mints for circulation in the realm of the Company. The great Mississippi speculation bubble burst, but the coins have remained, and must henceforth be classed among French-American Colonial coins. See also 287.

910 Ship sailing to right. FELLOW CITIZENS SAVE YOUR CONSTITUTION. Rev. Liberty-cap in rays. THE GLORIOUS WHIG VICTORY OF 1834. Edge engrailed; copper, very fine. Rings like an electro, but I think genuine. 17.

911 Arms of the city of Philadelphia. Rev. F. S. in wreath. White copper; fine and very rare. 17½.

In the Levick sale, May 26–29 last, this piece sold for $28.50; in the Warner sale following, $5.50; both in about the same condition. If the former price was perhaps extravagant, the latter was certainly much under the value of this very rare and desirable token.

912 Silver token. Liberty cap in a glory of ten rays, between which are thirty stars in groups of three. 1 DOLLAR. Rev. Blank. Struck over a Spanish real of 1776. Good. This token has never before been described, and, so far as I know, is unique. Plate VIII.

One of our best authorities on "Hard Times tokens" and American tokens in general, believes this to be a genuine private token of the period 1834–1838.

913 Bust to left. GEORGE IV. KING OF GREAT BRITAIN. Rev. W. H. SCHOONMAKER, CUTLERY & JAPANERY NO 181 BROADWAY N. Y. GUNS PISTOLS RIFLES &C. Brass; fine. Rare. 16.

Of much greater rarity than 3290 Warner sale (sold for $20), bought from me by that gentleman several years ago, and of which I have sold at least five specimens, both silver and gold, whereas this is the only Beauregard dime I have seen, and the only one ever sold at auction. An autograph letter of General Beauregard will be given the purchaser of this number.

951 Copper planchet. Hand holding a liberty-cap on short staff. LIBERTY AND EQUALITY; blank rev. Probably of the Revolutionary period. Fine and very rare. 15.

The legend and style of this piece are suggestive of the sympathy felt by a large party in America, under the lead of Jefferson, with the early movements in France, immediately preceding the outbreak of the "Reign of Terror;" the time of its issue has not, I believe, been definitely fixed, and this suggestion as to its possible character is offered for the consideration of those interested in early American pieces.
